Mini Stereo Headphones

Cat No 33-1000A

REALISTIC

Mini Stereo Headphones

INSTRUCTIONS:

Your Realistic Nova-34 Stereo Headphones are intended for use with Stereo-Mate™ and similar personal portable stereo equipment. To use the headphones, completely uncoil the cord (the headphone cord is used as an antenna in most personal portable units), and insert the plug into a 1/8" (3.5 mm) stereo jack. These headphones may also be used with mono equipment.

Adjust the headband and place the earpieces on your ears; the earpieces are marked for Left and Right. Then adjust the volume control on your personal portable to the desired level.

To clean the ear cushions, remove them from the headphones. Then wash them in an mild soap and water solution. When they are completely dry, replace the ear cushions.

RECOMMENDED ACCESSORIES:

Y-Adapter (Cat. No. 274-313): Allows connection of two sets of stereo headphones, with 1/8" plugs, to a single 1/8" stereo headphone jack.

20-Foot Extension Cord (Cat. No.42-2462): Provides more freedom of movement when wearing headphones.

Stereo Phone Jack Adapter (Cat. No. 274-367): Allows connection of stereo headphones that have a 1/8" plug to a 1/4" phone jack (for use with home stereo units).

SPECIFICATIONS:

Impedance	32 ohms
Cord Length	4 ft.(1.22m)with 1/8" (3.5 mm) stereo jack
